

## Neonatal Scent Cloths

### DIRECTIONS FOR MAKING SCENT CLOTHS:

1. Use washed, very soft, good quality flannel (minky or cuddle fabrics are ok).
2. Cut two 6"- 8" flannel pieces. Cut into a heart, oval, or leave as cut.
3. Do not use batting or lining; just the two pieces of flannel.
4. With right sides together, sew  $\frac{1}{4}$ " or so all around the perimeter, leaving an opening so it can be turned right sides out.
5. Turn fabric right sides out; sew opening closed.
6. Top stitch  $\frac{1}{4}$ " all around the edge.

Bring your completed cloths to the next guild meeting. The Neonatal Committee will make sure they are taken to the Neonatal Unit for families in need.

Thank you for helping out!
